## 1. Description of the Organization:

National Securities Depository Limited (NSDL) was established and commenced its operations from November 1996. NSDL has been promoted by IDBI, NSE and UTI as an initiative to curtail the drawbacks of the paper based system which prevailed before the formation of the depository system. NSDL was formed under the Companies Act, 1956 and has been granted a certificate of registration under the Securities and Exchange Board of India Act, 1992 (SEBI Act). NSDL as a depository is regulated by SEBI under the provisions of the Depositories Act, 1996 as well as under SEBI (Depositories and Participants) Regulations 1996 (SEBI Regulations).

The depository system introduced by NSDL has benefited the Indian capital market in terms of immediate transfer of securities, faster disbursement of corporate benefits, introduction of rolling settlements, pledging of securities etc.

## 2. Introduction to e-Voting:

The Ministry of Corporate Affairs has in its efforts for "Green Initiative in the Corporate Governance" has permitted paperless compliances by the companies through electronic mode.

Section 192A, of the Companies Act, 1956 read with Companies (Passing of the Resolution by Postal Ballot) Rules, 2001 recognises voting by electronic mode for postal ballot to increase the participation of retail investors in the decision-making process of companies. The Postal Ballot Rules, 2001 were Superceded by Postal Ballot Rules, 2011, which prescribed the appropriate mechanism for e-Voting.

In order to facilitate the Issuers to enable electronic voting National Securities Depository Limited (NSDL) has developed an internet based "e-Voting" platform, which will enable shareholders / stakeholders to cast their vote on the resolutions proposed by the companies by Postal Ballot.

# 3. Login to e-Voting website (Shareholders):

 Launch the Internet Browser and type the following URL in the address bar <u>www.eVoting.nsdl.com</u> and click on "Enter ()". The Home screen will be displayed. Select the Shareholder "Login" as shown below.
